## **Congressman Turner Statement on Fuyao Glass Locating at Former Moraine GM Site**

**Washington, D.C.** – Congressman Mike Turner (OH-10) released the following statement today on the news that Chairman Cao and Fuyao Glass Industry Group have selected the former GM Assembly Plant in Moraine for its latest manufacturing facility:

“The jobs resulting from Chairman Cao and the leadership of Fuyao Glass Industry Group’s decision to choose the former GM Moraine plant to locate their latest glass manufacturing facility is important to our local economy. Our efforts to save the plant from demolition have paid off. This facility will directly provide hundreds of jobs to the Dayton community with the potential for additional jobs at suppliers and distribution centers.”

“When I met with Chairman Cao in October I assured him that the highly trained and skilled workers in the Dayton community would be a valuable asset to their company. I would like to commend the work done by Governor Kasich, the Dayton Development Coalition and JobsOhio for showcasing the talented workforce and existing infrastructure in our region to recruit new companies and provide additional jobs.”

“I would also like to thank the staff over at the U.S. Department of Commerce for working with me over the last several years in an effort to preserve the existing facility from demolition and making it a viable location for future manufacturing.”

“I look forward to continuing to work with the leadership at Fuyao as they become an integral partner of the Dayton community.”
